**Seed Money Project Report 2023-24**

In the academic year 2023-24, the college's Research Committee facilitated the completion of 20 minor research projects by faculty members across various departments. Each project was supported by a seed money grant of Rs. 12,000, provided by the college, resulting in a total funding of Rs. 2,40,000 for the initiative. The initiative encouraged interdisciplinary research, contributing to both theoretical and practical knowledge. Despite challenges such as limited funding and time constraints, the outcomes were significant, with many projects offering valuable insights into societal and environmental issues. The research undertaken is expected to enhance the quality of teaching, foster further scholarly work, and strengthen the institution's contribution to academic excellence. The Research Committee acknowledges the dedication of all faculty members involved and recommends continued support for such initiatives to sustain a research-driven academic environment.
