**Lecture on Carrier Opportunities in Banking Sector
Report**

Year- 2022-23

Date –29/09/2022

Introduction

The Carrier Counselling Cell of Economics Department provides personal and Class wise counselling to students of Economics Department. Personal Counselling Sessions are conducted at the Centre by teacher as well as qualified and experienced Counsellors to help students resolve any kind of problems that they might face. Besides career-related problems, personal issues are also deal. Confidentiality is a legal requirement of counselling, and is strictly maintained. Thus the Counselling Cell provides a platform for students to pursue both their professional and personal goals with greater self-awareness, self-esteem, understanding and a focus.

Confidence issues, choosing the right career path, making choices in the various parts of life, self-doubt, peer pressure, are only some of the problems that young people often face. Choosing the right career path is also, often, a dilemma that the students face. The Cell provides vocational guidance to students based on an analysis of their personality, talents and interest. Insights into suitable work environments are also provided in vocational guidance. For example, a person with creative personality will succeed as a writer and a person who is an introvert is less likely to succeed in face-to-face sales promotion. If you choose a field that excites you, you will not only enjoy your work but will also excel in your chosen field. Understanding your personality is key in choosing the right career path

Objectives

1. To provide the application based career making knowledge to the students
2. Providing information about current job awareness
3. Providing extra career-boosting academic facilities to the students
